

Tangrams

Grade Level

TOOLS

Tangram puzzle pieces
(see page 42)

Tangram shape sheet
(see page 43)

Why

To develop understanding of spatial relationships

How

- See page 42 for directions to make a tangram set.
- Help your child cut out the seven tangram pieces very carefully.
- Work together, using all seven of the tangram pieces to cover the bird shape.
- To make more puzzles, make an interesting arrangement with all seven tangram pieces. Trace carefully around the outside of the design to make the outline of the new puzzle. Remove the pieces and give the puzzle to a friend to try.
- Use all seven of the tangram pieces to make your first initial. Trace its outline and cut it out of bright paper. Now make your last initial.
