

Community Service Agreement

Your community service obligation must be completed by May 1, 2011. You may meet this obligation in a variety of ways, as long as it is voluntary work (i.e.. not paid), is in service to a community need, and is for a non-profit organization or cause. A portion of your service should be in an activity that provides a “face” for those who are the recipients of your efforts, i.e., in direct contact instead of in support activities such as fund raising, etc. The supervisor of your activity is asked to sign this statement upon your completion of these hours. If you need help or ideas, please ask and I will make suggestions for you. A separate form should be completed for each agency with which you work.

Thank you.
